5 February 2008

Dear Professor Bath

**Re: Alzheimer's Society grant number TSA2008/09
Project grant
*Prevention Of Decline in Cognition After Stroke Trial (PODCAST): a
factorial randomised controlled trial of blood pressure and lipid lowering
£399,145 over 3 years
50:50 co-funded between Alzheimer's society and The Stroke Association***

I am delighted to confirm that your application has been approved for joint funding by the Alzheimer's Society and the Stroke Association. You should have received a formal offer letter from Peter Coleman on behalf of the two organisations. I write to inform you of the specific requirements of the Alzheimer's Society.

The Alzheimer's Society's Quality Research in Dementia funding programme is led by consumers in the QRD consumer network and each funded project has 3 members allocated as 'monitors'. It is a condition of the Alzheimer's Society's funding that the grant holder organises meetings with the 3 monitors allocated to provide updates on the progress of the project. These meetings may be more often for particularly clinical projects, but should be at least annual. The first meeting should be organised to coincide with the start of the project unless otherwise agreed with the research office. I have enclosed further details about this.

The names and contact details of the consumer monitors allocated to this project are given below

Mr Dave Hanbury 117 Everest Road Atherton Manchester M46 9NT Email: dave.hanbury@ntlworld.com Tel: 01942 796 733 (Home)	Miss Louise May Allen Flat 1 10 Fairfield road Chesterfield Derbyshire S40 4TP Email: lou.allen@gmail.com Tel: 01246 232775	Mr Andrew Pepper 2 Chestnut Close Brampton Huntingdon Cambridgeshire PE28 4 TP Email: andrewpep3034@aol.com Tel: 01480 451541
--	---	---

Additionally, it would be helpful if you could send me a digital photo of the main grant holder and any other researchers involved in the project via email to akhan@alzheimers.org.uk.

I look forward to working with you in the coming years and wish you all the best for your research project. If you have any queries, please do not hesitate to contact me on 020 7423 3607.

Yours sincerely

Ayesha Khan
Scientific Liaison Officer
